Two Kinds of Compatible Modes

Milesight Fisheye Camera offers Bundle-Stream Mode and Multi-Channel Mode to meet different needs. The Bundle-Stream Mode combines all the channels into one and sends to NVR or VMS, which is easy for compatibility. The Multi-Channel Mode sends all the original channels to NVR or VMS, so the channels can be modified separately.

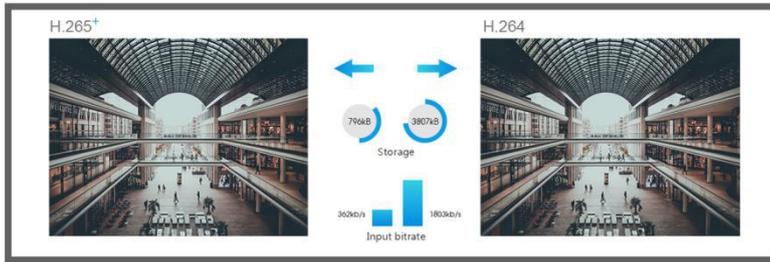

12MP Ultra High Resolution

Fisheye Network Camera features with 12MP ultra high resolution better restoring the images to guarantee superb image quality. The camera is a special model which produces spherical image and will have the dewarp process to adjust the original images to fit human eyes. The process may cause the pixel losing. That is why the high resolution is vital for a fisheye camera.

360° Panoramic Experience

The camera could easily reach the effect of over 4 regular network cameras with higher efficiency. Bringing 360° surround view with zero blind spots, it is able to provide comprehensive coverage of open areas such as airports, shopping malls, parking lots, retail stores, offices and more.

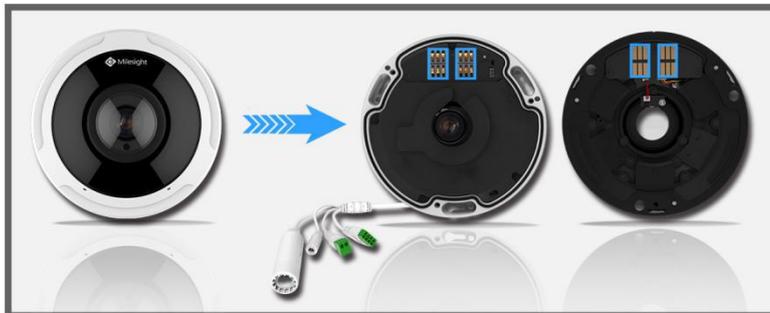

Stunning H.265+ Codec

Milesight H.265+ Series network cameras with the latest H.265+ compression codec reduce 70%~80% of bandwidth occupancy compared with H.264 while maintaining high visual quality, which boost the overall capacity of cameras.

Smart IR II Technology

The Smart IR II Technology has been upgraded to provide videos with a viewing range of up to 15m. Three LEDs work as High Beams and three LEDs work as Low Beams for better image clarity and quality. The advanced IR technology allows even IR light distribution in different situation and the brightness of High Beams and Low Beams can be adjusted manually. Moreover, with the IR anti-reflection panel, the infrared light transmittance is highly increased.

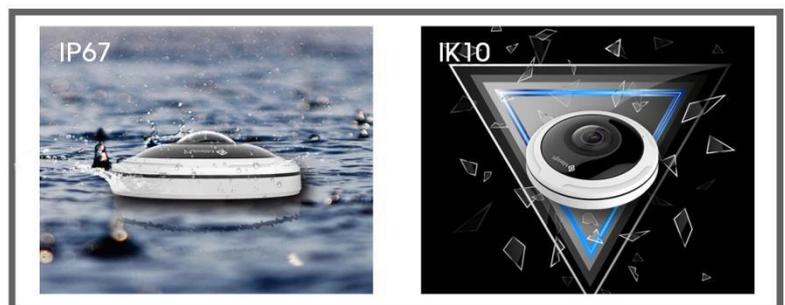

Exquisite Design

The body design of the camera insists on the idea of neatness and exquisiteness. As a whole, the screw-free design and Multiple-interface Cable keep the body neat. The Power Supply Board replaced the traditional way of power supply with cable which freeing interior space, making the camera an art of surveillance inside and out.

Robust & Reliable Performance

Featuring IP67 Weather-proof and IK10 Vandal-proof, the camera shields its sensitive electronics from dust and water, which ensures stable operation in all weather conditions. Also protect itself from the unexpected violence, guaranteeing the smooth running to avoid potential damages.
